CONESTOGA QUENTON GC1657 BREEDS A WORLD CHAMPION

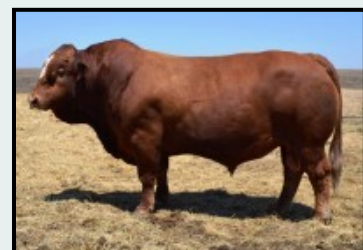

In 2019 we sold our first Simbra bull at the Cedarville E G Bull Sale. The bulls name was Conestoga Quinton GC1657. He was a dark Bull with a bit of a temper and chased the screeners and FLA agents around a bit.

Joel and Linley Lutge of Joshlin Simbras bought Quinton for his opening and only bid of R30k. They are both top breeders with one of the best Simbra breeding programs in SA and their show string is one of the very best.

Quinton went on to breed top calves for the Lutges including Joshlin Quartz. Quartz has won just about everything in SA and has also just won the Simbra Miss World photo competition. This competition puts the photos of all the champions from across the world against each other.

Quinton was then resold on the Lutge's sale for around R80000. The top three bull photos on the right are of Conestoga Quentin, the next bull is Conestoga Temujin, his maternal half brother and the two bottom bulls are his grand sire Excelsus Pacific and his sire SSG10101C Quinton
